Vendor spotlight!

Hi there! My name is Nimrit Doad. I am 16 years-old and I am the CEO and Founder of Skin Care Plush. My business is selling all natural acne oils and bath bombs. I started when I was 13, I always had very bad acne growing up and chemical washes and soaps did nothing but burn and scar my skin, so I started experimenting with all natural oils.

After 2 years of trial and error I finally found the perfect recipe that gets rid of all kinds of acne and redness fast. I was using it only on myself at the time until I realized by friends were having the same problem with acne, so I decided I wanted to sell my product and create my own business. My website is SkinCarePlush.com.

I just hope to spread the word and show everyone that they too can have acne free skin without the chemical side effects.
